

At the age of 16 enlisted army, 3 yrs, Pres Truman adding a year for Korea which gave me the Purple Heart, the rest of my life has been a Professional aviator. 36 years with a Delta Air Lines and still in commercial aviation. There is no way on this green earth that the FAA or Tsa could take my Airmen certificates with out cause or recourse!! the FAA will be a good unit only as long as the Pilots can point out their errors and challenge their decisions!
